Guidance Class~ A question was brought to SIT about the possibility of having Guidance in the Title 1 mobile or the Art/Music mobile. This is a principal decision, not a SIT decision.

Safety Concerns at the car rider line in the afternoon~ A question was brought to SIT about the possibility of allowing 6 cars to pull forward at a time so all colors can load at once. After the first round of cars leave each lane, teachers who cross a lane need to wait on cars in the other lane to pull forward before crossing. If everyone motions for cars to pull forward, all 6 poles can load at once and the line should move even faster.
